

E-Switch Selects Newark to Expand its Distribution in North America **Micro-miniature tactile switches included in initial in-stock offering**

CHICAGO XXXXXXXX, 2008– Committed to bringing design engineers the newest technologies first, leading multi-channel electronics distributor [Newark](#), part of the global Premier Farnell Group, announces that it has signed a distribution agreement with E-Switch Inc., a leading manufacturer of electro-mechanical switches. A full range of E-Switch tactile switches are now available for same-day shipping at www.newark.com/eswitch including the Series TL1014 side-mounted micro-miniature tact, as well as the popular Series TL1100 tact switch. Strong tactile/audible feedback and multiple operating force options allow the TL1100 to be applied to many industries, including telecommunications, consumer electronics, medical, testing/instrumentation, computer/servers/peripherals and audio/visual.

“We are pleased to have established a partnership with Newark because of their demonstrated strength in electro-mechanical sales and their presence across the markets they serve,” stated Tom Meyers, president of E-Switch, Inc. “Their strong catalog and online capabilities, coupled with their branch and field personnel across North America, give E-Switch extensive market reach.”

Paul Buckley, Senior VP, Sales and Supplier Management, Newark commented, “The demand for tactile switches has increased 46% within the last year, and E-Switch enhances our board-level switch offering for design engineers, affording them more choices for more applications.”

E-Switch products and a switch manual are available at www.newark.com/eswitch
