CREATING NEW PRODUCTS AND TECHNOLOGY FOR CUSTOMERS IN EVERY MARKET: ELECTRONICS, INDUSTRIAL, AND COMMERCIAL

*Fans trays and assemblies are available both domestically and off shore depending on volumes and requirements. We will build to print with 100% testing of the completed unit.*

## Fan trays and assemblies for all industries.

YOUR BEST PARTNER OF THERMAL SOLUTIONS

Fan trays are a very common sub-assembly used in electronic equipment, In addition to fan trays, OEMs commonly use fan packs, blower packs, and other sub-assembly work that involves sheet metal, fans and control devices.

Smart/Green products are becoming a major emphasis for the market, YS TECH can integrate power management, speed control, PWM functionality, and many other specialty features to your design.

Whether you have a 1U, 2U, 3U or custom chassis, YS TECH can build a great product for you. Let us take a look at your application and see what we can do for you.

Below you will see more value added services that go hand in hand with this product.

### Cooler Assemblies

YS TECH offers build-to-print services for our customers. We will produce, test and deliver thermal solutions to you at the best possible price. We can build short run, proto type and mid range volumes domestically in the USA. Large volume capacity is certainly available off shore in our Dougguan plant as well.

# Value Added Assemblies

*YS TECH offers a very broad range of services to our customers; from design to assembly to testing, your one stop shop!*

YS TECH offers a comprehensive line up of value added services both domestically and off shore depending on the scale of the project and time allocations. By having YS TECH value add your product you will get the comfort of knowing the job is done right and fully tested as a finished assembly. Fans are sensitive electronics devices and handling is a key part of their long term performance and reliability. Utilizing our product

knowledge and attention to detail, we will get the fans modified, tested, packaged and shipped to you in a timely fashion and proper handling. YS TECH does offer engineering services for value added assemblies as well as build to print.
