

Defining representation for over 22 years...

PRINTEC

Custom Membrane Switches; IP67 environmentally sealed, Flexible, & Backlit. Nameplates, Overlays, Custom Keypads, & Touchscreens. Flexible Circuits; IML/IMD, ISO 13485/TS 19649

METHODE ELECTRONICS

Bus Bars: Planar, Laminated, & Powder Coated. High Current Cable Assemblies, Fusion Lugs, Connectors & Contacts. Custom Heat Sinks: Water cooled, Extruded, Bonded Fin, & Flatback

IMPACT DISPLAY

LCD Displays: Touchscreens, A/D Board Controllers, Industrial Motherboards, Inverters, Bonding, Coatings, & Kitting Services. Non Counterfeit Obsolete Components!

CWS

Ferrite & nanocrystalline Common Mode Chokes, Inductors & Differential Mode Chokes, Matrix building blocks for High Frequency Applications, Power transformers, Current Sensors, EMI Devices, Single & 3 Phase oil filled transformers, & Reactor Coils.

VCC

LED's, Light Pipes, Panel Lenses, Clips, Panel Mount Indicators, Lamps, Circuit Board Indicators, & LED Mounting Hardware. Custom design & build to print lighting solutions.

SAMWHA

Capacitors; MLCC, Ceramic Disc, High or Low Voltage Power & Energy storage (EDLC & Hybrid) Filters; EMI & LC. Chip Inductors & Beads, and Varistors.

Y.S. TECH

AC & DC industrial cooling fans & blowers. Automotive Grade, Xtreme high performance, IP67 fans & blowers for Harsh Environments. Heatsinks, Powercords & Castings. Free Electro-Thermal Analysis.

OPTIFUSE

Fuses; Resettable, PCB, Automotive, Industrial, Electronic tube, Holders, Clips, Blocks, & Accessories. Circuit Breakers; Thermal Cut-offs.

VERIS MANUFACTURER

Veris Manufacturing is a full-service electronics contract manufacturer. We know that your EMS provider is normally the biggest budget spend and scrutinized the most. With all the complexities of our business, it is key to have free flowing and open communication, as well as having the tools and skills to keep it all organized.

MC ELECTRONICS

Extensive experience in critical medical cable assemblies, wire harnesses and electromechanical assemblies has enabled us to support many different industries: robotics, semiconductor, Telecom, industrial, and solar. We support designs for micro gauge wires, special high-voltage pulse cables, and systems used in the harshest environments. From optical instruments to cell analysis to metrology tools, they support your applications with high performance, reliability, perfect quality and cost effectiveness.

ANDERSON ELECTRONICS, INC.

Provide high end crystal products including SC cut, HC49, HC49U, OCXO, TCXO, VCXO, crystal filters, and clock oscillators. We also provide Crystal Blank

SMD, Inc.

Authorized Distributor specializing in passive, interconnect, discrete, opto-electronic, electro-mechanical, and frequency control components. SMD Inc. offers a variety of Inventory Replenishment Programs designed to be flexible and responding to the ever-changing needs of our customers.
