

astron(elec•tron•ics)

verb: 1. representation defined

Defining representation for over 23 years...

PRINTEC

Custom Membrane Switches; IP67 environmentally sealed, Flexible, & Backlit. Nameplates, Overlays, Custom Keypads, & Touchscreens. Flexible Circuits; IML/IMD, ISO 13485/TS 19649

POWER DYNAMICS

Connectors: EMI/RFI Filters, IEC 60320 inlets & outlets, Nema, Pin & Sleeve and Harsh Environment. **Power Cords, Battery Holders, and Mechanical Interlock,** IP67 for Harsh Environments (UL Rated)

Power Dynamics, Inc.

VCC

LED's, Light Pipes, Panel Lenses, Clips, Panel Mount Indicators, Lamps, Circuit Board Indicators, & LED Mounting Hardware. Custom design & build to print lighting solutions.

IMPACT DISPLAY

LCD Displays: Touchscreens, A/D Board Controllers, Industrial Motherboards, Inverters, Bonding, Coatings, & Kitting Services. Non Counterfeit Obsolete Components!

Y.S. TECH

AC & DC industrial cooling **fans & blowers.** Automotive Grade, Xtreme high performance, IP67 fans & blowers for Harsh Environments. **Heatsinks, Power cords & Custom metal castings.** Free Electro-Thermal Analysis.

ANDERSON ELECTRONICS, INC.

Provide high end crystal products including SC cut, HC49, HC49U, OCXO, TCXO, VCXO, crystal filters, and clock oscillators. We also provide Crystal Blanks

VERIS MANUFACTURING

Veris Manufacturing is a full-service electronics contract manufacturer. We know that your EMS provider is normally the biggest budget spend and scrutinized the most. With all the complexities of our business, it is key to have free flowing and open communication, as well as having the tools and skills to keep it all organized.

MC ELECTRONICS

Extensive experience in critical medical cable assemblies, wire harnesses and electromechanical assemblies which enables us to support many different industries: robotics, semiconductor, telecom, industrial and solar. We support designs for micro gauge wires, special high-voltage pulse cables, and systems used in the harshest environments. From optical instruments to cell analysis to metrology tools, we support your applications with high performance, reliability, perfect quality and cost effectiveness.

METHODE ELECTRONICS

Custom **Bus Bars, Power Connectors, Cables, and Chill Plates.**

Lead Frame: insert molding of complex interconnect geometries to be integrated into assemblies reducing part counts and assembly costs.

COIL WINDING SPECIALISTS

Ferrite & nanocrystalline Common Mode Chokes, Inductors & Differential Mode Chokes, Matrix building blocks for High Frequency Applications, Power transformers, Current Sensors, EMI Devices, Single & 3 Phase oil filled transformers, & Reactor Coils.
